**Polish Patriotic Memorial.**  
Cracow was once the capital of free Poland, with a cathedral equivalent to Westminster abbey, wherein sleep the generations of Polish kings and heroes. It possesses the most striking patriotic memorial in the world. This is the Kosciuskoburg, a mound 390 feet high, erected to the memory of Kosciusko, and formed of earth from every battlefield of Poland.

Do You Notice Something  
Very Neat About These  
Glasses?

The absence of screws and the use instead of little beveled straps gives a touch of distinction and class in either eyeglasses or spectacles. Good appearance is only one of the great advantages of Keelock mountings. The lenses are cemented in. They can't come out, loosen or crack as they do when metal screws are used. It won't take long to explain the Keelock to you and show samples. You'll be very much pleased.

Jasper School opened Monday with a larger attendance than ever. Seventy one were enrolled in the High School, which is 36.5 per cent larger than last year. Students and teachers alike are enthusiastic and a big year is promised for the Jasper schools.

#### George Foreman Hurt.

George Foreman fell from a load of hay last Thursday and sustained an injury to his back that laid him up a few days. Dr. Hendricks was called and believes Mr. Foreman is not injured seriously.

#### Man With Glasses.

It is a greater crime in the eye of the law to strike a man who wears glasses than it is to assault one who does not wear glasses. In most of the states this law obtains, if not in all of them.

#### Quite Useless.

Pastor (from the pulpit)—The collection which we took up today is for the savages of Africa. The trouser buttons which some of the brethren have dropped in the plate are consequently useless.

#### Individual Gifts.

Degrees infinite of luster there must always be, but the weakest among us has a gift, however seemingly trivial, which is peculiar to him, and which, worthily used, will be a gift also to his race forever.—Ruskin.

## President Wilson Said

(From his speech before the National Chamber of Commerce in Washington, D. C.)

"There is a shortage of food in the world now. That shortage will be more serious a few months from now than it is now. It is necessary that we should plant a great deal more. It is necessary that our land should yield more per acre than it does now, and the methods of our farmers must feed upon the scientific information to be derived from the state departments of agriculture and from that tap root of all, the United States department of agriculture."
